

## EXAMPLES OF GRAVITATIONAL POLARIZATION OF OBJECTS OF THE UNIVERSE

Nikitin V. N., Nikitin I.V.

Gravitational polarization is inherent in all objects of the Universe.

## EXAMPLES OF GRAVITATIONAL POLARIZATION OF OBJECTS OF THE UNIVERSE

The author gives the examples confirming a hypothesis of gravitational polarization of objects of Solar system and all Universe (1):

- axial rotation of the Saturn Enceladus satellite (fig. 1),
- orientation of splinters of a comet Shumeykerov - Levi - 9 (fig. 2),
- polarization of a congestion of galaxies (fig. 3).

## GRIVITATIONNY POLARIZATION IS INHERENT IN ALL OBJECTS OF THE UNIVERSE LITERATURE
