The case that Mr. Steven defended for me and that forced everybody into doing papers caused everybody to do atrocities to each other. Mike chose Mr. Steven while my family was on vacation. My parents and both sides of my family are innocent. Mr. Steven has the ability to kill all of me and my family but I did try to destroy or destrosar el papel de el. I attacked Mr. Steven with a glass ball paper weight and flipped his desk. He saw and felt fear. This will forever be etched in his brain and mind. So no matter what he does to me or my family, everytime he is alone or in front of the mirror or looks at that paperweight he will remember fear. With his desk knocked over Carmen came in and others from the Tower of Life knew what happened. Even If I don't make, I will take to my grave knowing that the man who strikes fear in everybody, met fear himself from his desk that was knocked over. I may die or live a thousand deaths but I will live in his memory and I know and the Tower knows and OPA knows that he who instills fear felt fear. I throw myself at the mercy of God for he is my maker, he giveth and taketh life. And in the end he will take yours as rest assured you can and will take mine. Amen.
