The Assumption Of S. Virgin Mary -Written in Cairo – Egypt –30<sup>th</sup> November 2018

**Abstract**

**The Solar Group is One Geometrical Structure**

**The Research Hypothesis:**

The research provides 5 hypothesis as following

**1<sup>st</sup> Hypothesis**

**The Solar Group Is Created From One Energy**

**1<sup>st</sup> Hypothesis Explanation:**

- 1- Planet matter is created of Energy, ( $E=mc^2$ ) supports that
- 2- Planet Orbital Distance (Space) is Energy also
- 3- Planet matter and orbital distance both are created from the same energy (will be explained with 3<sup>rd</sup> hypothesis)
- 4- The Solar Group Is Created Of One Energy Only (the original energy)
- 5- The solar group original energy is found before any Planet matter birth
- 6- The solar group is similar to one trajectory of Energy and each planet is a point on it.
- 7- The solar group also is similar to a great river has many canals and these canals created soils on their banks..., so the river with canals and soils are of them are created from the same water (the same energy)
- 8- The solar group is similar also to a creature body has different members, where the same blood moves through these members to provide the needs.

This Hypothesis is discussed in following papers

Solar Group Geometrical Structure

and

Definition of Space (Revised)

<http://vixra.org/abs/1810.0307>

## **2<sup>nd</sup> Hypothesis**

### **The Solar Group Is One Geometrical Structure**

#### **2<sup>nd</sup> Hypothesis explanation:**

- 1- The solar group original energy depends on geometrical rules (will be explained with 4<sup>th</sup> hypothesis)
- 2- These geometrical rules form together one geometrical structure
- 3- The solar planets form together one geometrical structure. Each planet is a part of this same geometrical structure and performs a specific job or contribution for this same geometrical structure. So all solar planets cooperate and integrate together to produce this one geometrical structure.
- 4- The geometrical structure which is produced by the solar planets cooperation and integration is the same geometrical structure which is produced by the original energy geometrical rules. The original energy motion can be similar to a painting drawn by a pencil, then the planets matters are created to move in the same trajectory which can be similar to colours for this same painting but the picture is the same (the motion trajectory is the same).
- 5- Each planet data is created to be suitable for this planet role or contribution in the general geometrical structure.
- 6- There's no absent planet, that means the general geometrical structure is a complete by the found 10 planets (because the original energy is created planets enough for the general geometrical structure)
- 7- Based on that, Solar Planets Data is in harmony with each other (and complementary to each other)
- 8- The planet motion depends on the planet data and not on the gravity
- 9- Based on the solar planets data general harmony, the planets motions general harmony I produced. And based on the planets motions general harmony, Kepler 3<sup>rd</sup> law is produced.
- 10- The general geometrical structure aims to pass the energy through the solar group (the energy passing through the solar group is similar to the blood passing through the creature body to provide the required energy)

This Hypothesis is discussed in following papers

Kepler 3rd Law Explanation (a Claim Against Nobel Prize Board Decision in Physics 2018)

<http://vixra.org/abs/1810.0053>

Kepler 3rd Law Explanation (Part No.2) (To Support my Claim Against Nobel Prize Board Decision in Physics 2018)

<http://vixra.org/abs/1810.0485>

### **3<sup>rd</sup> Hypothesis**

**The Planet mass and orbital distance is created from the same energy (Theory of Matter Creation)**

#### **3<sup>rd</sup> Hypothesis explanation:**

- 1- In Young Experiment (Double Slit Experiment), the light coherence produces bright fringes and dark fringes
- 2- We see the bright fringes as matters (masses)
- 3- We see the dark fringes as distances (Space)
- 4- This explains the planet diameter and orbital distance relationships.

Why we see the bright fringes as matters? This will be answered in following hypothesis..

This Hypothesis is discussed in following papers

Solar Group Geometrical Structure

<http://vixra.org/abs/1805.0081>

### **4<sup>th</sup> Hypothesis**

**The solar group moves based on a physical law and not in chaos because of the human mind effect on the universe (the planet motion and human knowledge relationship)**

#### **4<sup>th</sup> Hypothesis explanation:**

- 1- The human mind contains electromagnetic waves (may travel by c velocity)
- 2- I suppose the realization process in human mind works by c velocity
- 3- Special Theory of Relativity tells us that, if there's a difference in velocity =c between 2 observers each one will see the other as light beam... but if both observers moves by c velocity there's no difference in velocity so both of them will see the other as a matter
- 4- That's why we see the bright fringes as matters because our minds works by this same velocity..
- 5- That answers why the planet moves by a physical law and no in chaos... because the matter is universe is created as an effect of the human mind on the universe.

This Hypothesis is discussed in following papers

The Observer Effect On The Observation Results (Space = Energy=mc<sup>2</sup>)

<http://vixra.org/abs/1810.0343>

## 5<sup>th</sup> Hypothesis

### Earth Moon is The Solar Group Energy Motion indicator

#### 4<sup>th</sup> Hypothesis explanation:

- 1- The Solar Group Energy is reflected inside the moon orbit (to concentrate the energy)
- 2- The reflected energy in the moon orbit can be similar to a sea of water and the moon is a paper boat. That's why the moon is the energy motion indicator
- 3- The solar group energy is reflected in the moon orbit with small values (shorter distances) because of Lorentz length contraction effect
- 4- There are relativistic effects in the solar group which enable the solar group whole energy to be reflected in the moon orbit to concentrate the energy
- 5- The relativistic effects cause the distance values to be seen in time values and vice versa...

This Hypothesis is discussed in following papers

The Moon Orbit Analysis

<http://vixra.org/abs/1811.0422>

The Moon Geometry

<http://vixra.org/abs/1811.0389>

## The Conclusions

- 1- The Solar Planets motion trajectory is a pyramid
- 2- The planet motion trajectory is a square and not an ellipse
- 3- The energy concentration in the moon orbit aims to produce the sun rays where the sun rays are produced on the moon orbit energy

These Conclusions are discussed in following papers

The Solar Group Geometrical Structure is A Pyramid (Revised)
