## Abstract

In first chapter of ToE-Framework “The Solution to the Problem of Time” and second Chapter of ToE-Framework “The Solution to the Problem of Gravity” this author informed scientific community about the framework for the Theory of Everything concept, that must be applied in order to get back into Paradise on earth. Within a third chapter, the author explains how to perform to decode the Matrix of thought. In this paper, the author gives an image of the holographic universe from outside.

Keywords: Theory of Everything, Matrix, Black Hole, Big Bang, Holographic Universe

### 1. Toe Framework

First the author remind the first tree papers [1], [2] : We live in a holographic world that is a three-dimensional world for perception on a two-dimensional round table on which two “free will” balance out their forces. The world is first all in one (1 – dimensional), enfolds in two dimensions, and then into three dimensions. Lets have a look again on the Theory of Everything – Framework

The all in one equation:  $\frac{\text{meter}}{\text{second}} = 1 = 12 \cdot \pi c^3$

The Unified force enfolding from one dimension into two dimension:

$$F_{\text{gravity}} = \frac{\text{Cause}_{\text{action}}}{\text{Cause}_{\text{reaction}}} = \frac{T_{\text{action}}}{T_{\text{reaction}}} = \frac{m}{s}$$

$$F_{\text{inertia}} = \frac{\text{Cause}_{\text{reaction}}}{\text{Cause}_{\text{action}}} = \frac{T_{\text{reaction}}}{T_{\text{action}}} = \frac{s}{m}$$

## 2. Visualisation of the Holographic Universe

- The earth, sun, planets, stars etc are “empty” and expanding with the speed of light in terms of the “visible” universe. As the human “perception” (eyes) is linked to the center of their universe (surface of earth). The origin of the “payer” of the Matrix (that delivers the movieclip on our eyes) is the interface between “Thought” (representing the knowledge of the “past” and containing the immaterial consciousness) and “Emotion” (representing the outer world / reality containing the body of the observer with all its senses).
- Depending on an agreement of the individual human being (society ) on where it is to set the center of the Universe (Sun, Moon, Mars,Earth) there will develop a war and fight on egocentered thought in society (many world: each particle of “mass” has its own “big bang” and tiny “black hole”).
- For rational reason (the human being (living) belongs to earth (living), the center of the universe is to set as the surface of earth (center of earth), as there seems no sense in battle about which single stone ob a beach or on Mars could be another center of universe.
