

Zero is only a Mathematical Fantasy

Toshiro Takami*

Abstract

Mathematics returns to Ancient Times.

Perfect Zero cannot exist.

In physics, there are many particles in a vacuum.

0 is not perfect zero.

0 is almost zero.

Zero is only a mathematical fantasy.

There is no Zero.

0 may be a return to the womb.

And, love is 0 and infinite.

key words

Zero is Mathematical Fantasy, return to the womb, love is 0 and infinite

Introduction

$$a \times 0 \approx 0, \quad a \times 0 \neq 0.$$

$$a \times 0 \times 0 \times 0 \times 0 < a \times 0 \times 0 \times 0 < a \times 0 \times 0 < a \times < a.$$

$$a - 0 - 0 - 0 < a - 0 - 0 < a - 0 < a < a + 0 < a + 0 + 0 < a + 0 + 0 + 0.$$

Discussion

Once upon a time, there was no mathematically Zero.

0 is only a conceptual 0.

0 is not perfect zero.

0 is almost zero.

Zero is a fancy product created by humans in mathematics.

Humans are not Gods.

Humans and animals are good friends and love one another.

The dog does not know 0. So is it an exaggeration to say that 0 does not exist?

Of outer space, a lot of elementary particles go in a space where there is nothing.

I think perfect zero is equal to infinity.

Take a spaceship that flies at super high speed and travel to Infinity in space, There will be Zero over Infinite.

I think there is a world where there are no wars, no conflicts, peacefulness, peacefulness and coexistence with animals.

Zero is a world where there is no war, no conflict, no hatred, a quiet, friendly life with animals.

The previous mathematicians who found 0 were mistaken for the concept of 0.

Zero means a peaceful world where there are no conflicts or wars, and where you can live with animals.

It is because Next Infinity is Zero.

Conclusion

Perhaps the return to the womb may be zero.

Psychologically, the mother's presence is zero, and the Big Bang may be a return to the womb, mentally.

Say it again. 0 may be a return to the womb.

And love is 0 and infinite.

After Word

As soon as it was translated into English by Google translation, Foreign language is a code for me. I don't know what I'm writing.
