The virus cannot be identified in such a short time. Bacteria are quickly identified, but viruses are impossible.

Now, Japan has identified influenza virus as a new type of coronavirus.

Shimura died of pneumonia from the influenza.

The first Japanese cruise ship dies from pneumonia caused by influenza.

What is the new coronavirus?
The new coronavirus that is happening now is influenza.
The last evil that the old power is trying to put on the "last" at the last minute

The new coronavirus is an ordinary influenza, and it can be said that it is a media virus. It is the last evil of the old power that has been cornered to the final stage.
The last evil that the old power is trying to put on the last last minute

It is the small number of patients in Japan that has decided not to replace Japan's power. China and Korea seem to have decided to do so. Sweden is trying to imitate Japan, but it is a smart choice.

Three or four years ago, a series of patients died of pneumonia from a cold, but they were weaker.
Three or four years ago, 85,000 Americans died of influenza in the United States.
In the same year, in Japan, a series of patients died of pneumonia after ignorance of influenza or common cold.
In comparison, it is a weak influenza virus.

Will the virus be identified in such a short time?
The press is thriving in pursuing the Trump administration last, but don't be fooled.
This is written as a warning because many people still believe the Fukushima accident is true. The Fukushima nuclear accident has not actually occurred. They are the same people who believe the Apollo 8 moon landing is true.

The Apollo 8 lunar landing took place in the desert or in a television studio. The Fukushima nuclear accident is also the same and all fictional. I think many people know this.

Apollo 8 moon landing
Fukushima nuclear accident
New coronavirus

As you can see from the above list, Everything is fictional. If you measure the radioactivity in Fukushima, you will understand. The Fukushima nuclear accident is fictional. I think you can understand the Apollo 8 moon landing because the video is posted on youtube.

99% are fake.
